C.V. last updated in March 2022

## EDUCATION

M.Sc. in Environmental Engineering 📅 2020

Federal University of Parana

Title: "Spatiotemporal vehicle emissions inventory model: A case study in Curitiba-PR" [\[Link\]](#) *[In portuguese]*

Advisor: Prof. Marcelo Risso Errera Co-Advisor: Luiz Carlos Daemme

B.Sc. in Environmental Engineering 📅 2016

Federal University of Parana

Title: "Flow rates regionalization using RBF Neural Artificial Networks" [\[Link\]](#) *[In portuguese]*

Advisor: Prof. Ricardo Carvalho de Almeida

Exchange Program in Environmental Engineering 📅 2014

University of Waterloo

Fellowship Science Without Borders Grant

## EXPERIENCE

Research Assistant

Institute for Applied Economic Research (IPEA)

📅 Sept 2019 – Current

📍 Brasília, Brazil

- International comparison of urban buses emissions based on GTFS data *[In progress]*;
- Development of R packages to process GTFS in a high spatiotemporal resolution (gtfs2gps package) and to estimates tailpipe emissions from public transportation (gtfs2emis package) *[In progress]*;
- Contribution to the project "Access to Opportunity", which aims to calculate people's access to jobs, health, and education services by different transport modes for Brazil's largest cities;
- Study on the impact of COVID-19 in the air travel demand and emissions in Brazil; Trends and inequalities of urban mobility in Brazil.

Research Coordinator

Cicloiguaçu Cyclist Association

📅 Jun 2016 – Jun 2019

📍 Curitiba, Brazil

- NGO aims to increase and improve bicycle use as a mode of transportation in Curitiba
- Coordination of Curitiba's cyclist profile 2017, an initiative of Metropolitan Observatory UFRJ; Transporte Ativo and LABMOB
- Participation in vehicle counts projects, seminars about bicycle in the urban environment, spatial data analysis on cyclist injuries and deaths, with the partnership with local universities

Intern

Envex Consulting

📅 Fev 2015 – Mai 2016

📍 Curitiba, Brazil

- Air quality, noise pollution, hydrology, and environmental impact assessment projects
- Development of R scripts to process and visualize data on air quality and noise monitoring projects

---

## Research intern

### University of Waterloo | Climatology Lab

📅 Set – Dec 2014

📍 Waterloo, Canada

- Research in a project entitled "The study of the relationship between ocean temperature and jet streams displacement in scenarios of climate change", with the supervision of Prof. Christopher Fletcher;
- Programming using R and Linux (Bash Shell), as part of the Science Without Borders project grant.

---

## Intern

### Public Prosecutors Office

📅 Nov 2011 – Ago 2013

📍 Curitiba, Brazil

- Assistance on process related to municipal solid waste management, atmospheric emissions, environment licensing, and water resources
- Development of report on composting and municipal solid waste management, in the light of 12.305/10 law
- Technical analysis on Environment Impact Studies, Solid waste management plans, and other projects related to environmental management of cities and industries
- Inspection of industrial and environmental damaged areas
- Studies involving environmental law

---

## Junior Enterprise

### Ciclus Consulting – Federal University of Parana

📅 Mar 2010 - Mar 2013

📍 Curitiba, Brazil

- Greenhouse gas inventory project;
- Entrepreneurship and project management training;
- Supervision of project consultants responsible for: i) Meet the project deadline and budget; ii) Follow methodology for project management.

---

## AWARDS

---

- 2021 "Enjoy Science UFPR" award due to master thesis excellence

## GRANTS

---

- 2013-2014 Exchange program at University of Waterloo (Canada), Science Without Border program
- 2017-2019 CAPES Studentship for Master Degree at Federal University of Parana (UFPR)
